

ABHISHEK

WEB DEVELOPER

ABOUT

Ambitious engineering student pursuing bachelor of technology in mechanical engineering degree and eager to contribute developed knowledge in the field of Robotics and AI. Currently I am actively participating in competitions related to machine learning and data science.

PROFESSIONAL SKILLS

- In depth knowledge of most of famous algorithms of machine learning and able to develop from scratch.
- Data visualizations and Feature Engineering.
- A working knowledge of libraries - pandas, Scikit-learn, Tensor flow, Matplotlib, Numpy and seaborn
- A programmer with continuous practice of more than 1.5 year in java, C, PHP and JavaScript.
- Git and NPM.
- basic knowledge of C++ ,C and python.
- Web development Skills: html, CSS, React, node, REST APIs, SQL , bootstrap

WORK EXPERIENCE

FULL STACK WEB-DEV INTERN, CHILLITRAY
FEB 2021- present

- Developing Rest APIs for the projects
- Learned about the Git
- Learned about the way of working in real world projects , for example timelines and collaborations with other projects.

EDUCATION

Bachelor of technology , IIT Madras
Mechanical engineering | 2019 - 2023

Machine Learning Specialization , Washington University (Coursera)
march 2020 - present

MAA SARASWATI SCHOOL , Kaithal
march 2017 - march 2018
Got passed with first rank in school with core subjects Math's, physics and chemistry.

PERSONAL SKILLS

- Fast learner
- Creative spirit
- logical and out of box thinking
- Time management
- Good listener

EXTRACIRRICULAR

march 2021-present
(Full time)

NSS IIT MADRAS

PR- Manager

- Learned about public speaking
- Having conversations with speakers

may 2020- present
(Full time)

Electrical Club, Center For Innovation IIT MADRAS

Project -Member(SBoard)

- Learned about R-pi and Embedded Systems.
- Did research for haptic touch and Ultrasonic feedback.
- Now building software for the user interface and functionality.

august 2019-may-2020
(Full time)

Mechanical Engineering Association ,IIT madras

Coordinator in team

- First I learned about html ,CSS and JavaScript and then created templates for websites with a team.
- Improved user interface to give a better user experience
