

# COVER LETTER

Dear Sir/Mam ,

I am writing to apply for the Data Analyst summer internship position at your esteemed Company, American Express. I believe my skills and experience make me an ideal candidate.

I have had a great deal of experience in web development, Data science and coding . I have also done 2 internships in the Software domain and various self projects in both software and Machine/ Deep learning.

Last 3-4 months , I worked as an App developer at the Qkres and as a Full-Stack(ReactJS/Django/postgreSQL) at Jivass Tech .At Qkres, I was responsible for leading a team of 4 members to build an Hybrid App, to tackle problem of Developing Contactless system for Institute management.

At Jivass Tech, my colleague and I developed a Mall Metering Website (till alpha phase ) according to the Client requirements.

Also some Projects involving Deep learning, CNN, NLP were made, which gave exposure to solving real world problems. I am quite efficient in Python, SQL and MS Excel.

I believe that I would be an asset to your program. This internship would provide me with the ideal opportunity to assist your organization and to expand my skills both in Mathematical and Programming domains.

Thank you for your consideration,

Sincerely,

*Aniket Katakdhond.*
