Letter of Recommendation

To whomsoever it may concern

Mr. Abhishek has been working with me for the period of 7th June 2021 to 6th Aug 2021. During this time, he has worked on various machine learning models. He managed to complete various ML projects including data research, data gathering, modeling, error monitoring, and stakeholders presentation about business impact. He is technically competent and has made key enhancements to our Machine Learning systems.

Yours sincerely,  
Ayush Aggarwal, Student Mentor at Go Data Insights
